

# SEWING

## Quick Guide

### Set Up:

1. Select a thread color to match your fabric.
2. Wind the bobbin with this thread (top of the machine.)
3. Insert the filled bobbin into the needle plate.
4. Thread the machine and draw up the bobbin.

### Use:

1. Make sure the presser foot is down before sewing.
2. Reverse the sewing path at the start/end of stitching.
3. If changing direction, make sure needle is down and lift presser foot to shift fabric.

### Clean Up:

1. Make sure to turn off the machine when you're done.
2. Clean up all fabric scraps and thread remnants.
3. Return any tools used to their original location.
