Starting Fall 2020, BeAM will begin offering a limited amount of tool-specific kits that can be checked out for use outside of the makerspaces.

To take advantage of the kit program, course instructors must first contact the BeAM Education Program Manager (Anna Engelke, anna@beam.unc.edu) to opt in to this program. Instructors will then receive a link to the online system for reserving kits that can be shared with students.

Currently, there are two tool kits available for check-out: Crafting and Sewing.

**Crafting Kits**

- **Contents:**
  - Hot glue gun
  - Paint set
  - Googly eyes
  - Rubber bands
  - Modeling clay
  - Blank index cards
  - Pipe cleaners
